

FCC:

I am extremely concerned about Sinclair Broadcasting's decision to air an anti-Kerry film right before the election. This is a violation of their implied contract with the American public. Regardless of what political views are being espoused, I would feel the same way.

The American people are getting jaded, unable to trust the media, to expect fairness, to expect the public trust to be respected.

Please exert your oversight authority and keep this from happening.

We need an atmosphere that fosters 'free and fair elections' as our President says, in this country as well as others.

Thank you,

Peggy L. Trezona
